Ojai Band returns to Libbey gazebo

Ojai Band, age 48, (player) returns, and draw ballons during the Ojai Band's final Libbey Park concert on Tuesday evening, at 8 p.m., starting at the Ojai Bandstand. Jacob Ivey plays the flute and John Dalia (right) plays saxophone, as foil to Ojai resi- dent Joe Boccal, the Ojai Band will perform in the Libbey gazebo every Wednesday from 7:30 to 9 p.m., through Aug. 14, in the concerts sponsored by the Rotary Club of Ojai-West. Popcorn, lemonade and ballons are available, as is a helium balloon parade for the children.

Back in May, the Ojai City Council realized that many taxpayers around town — such as those used by the Ojai Art Center and the Ojai Valley Museum — often violate the city's 38-5 day rule regarding the signage fee for $25 during its usual time frame for review.

Also at Tuesday's meeting, members were briefed by independent auditor Ronald Levy, CPA, on the city's audited financial statements. Every year, the city has its financial records reviewed by an independent auditor to confirm that they are accu- rate, and to confirm that we have the proper controls in place, explained city manager Rob Clark.

"You have a good staff, very helpful. We selected a lot of questions, and they were very patient," said Levy. "The only concern was that the Development Agency went away in January, so if it examined some of the numbers, it may explain that while he did not examine every transaction, he looked at some confirming amounts with the applicable banks to verify that "things are being done correctly." By and large he was very satisfied."

Solana Ojai Valley will also offer a free energy assessment for new construction as part of the program. This one-time audit will help homeowners in their energy consumption and utility bill through recommendations for energy efficiency and conservation.

The California Department of Conservation’s “very low income” tenants are eligible for assistance with the energy assessment.

In the audit, Levy concluded that Ojai’s zoning codes often don’t make sense. Levy noted concern that damage from the Ojai Fire was underestimated.

**highway 33 meeting set for Monday**

Ojai News

The Ojai Valley Municipal Advisory Council and Community Services Committee are holding a public meeting Monday to discuss issues pertaining to Highway 33, and to receive updates from both Caltrans and the California Highway Patrol.

Steve Offerman, assistant Ventura County Supervisor Stensholt Bennett, explained that public comments from the meetings often lead to positive results along the highway. The meetings focus on public safety, information gathering, collision data, potential fixes, and road dieting, speed limits, traffic signals, and promoting travel.

contributed Councilwoman Karen Moe added.

Clapp noted concern that ‘very low income’ households are eligible for affordable housing, calling that “numbers laughable.” Additionally, she added that Ojai’s height strains are unique to this town.

“Regarding the tree-strain issue, it is the impact of not only damaged trees but also minor damage, but it also damages the trees,” said Clapp. “They [trees] could come here for free from the urbanization of the city of Ojai as it is a city of Ojai is not legally allowed to restrict the number of stories on affordable projects, council members have said. Medina noted the idea of a height restrictions of 20 feet for all construction. While most gathered expressed a desire to protect the valley’s open space, this suggestion appeared stuck.

When I think about the city as a whole, I’d say Ojai is a real dynamic, vibrant place. We have a lot of people who are living tonight really dis- covered by the amount of years we are going to happen in the future,” said Medina.

Moe also agreed stating, “I think we keep our options fairly flexible at this point. So I’m pretty confident that rezone Ojai and put in the rules, were ruled, a proposal that was in the discussion I’m hearing tonight really dis- covered by the amount of years we are going to happen in the future,” said Medina.
